

Energy Optimization

Since 2002, we've been working with businesses as their trusted energy management team- combining our market knowledge, technical expertise, and consultative approach, we work tirelessly to lower your energy costs. We're not just another broker- we will investigate your energy spending from all angles to create a custom savings approach.

You may believe that the only way to save money on your facility's utility bill is to reduce the usage. With electric bills that is not the case. Your facility may have a low power factor which means you are not using electricity efficiently.

Utility Bill		
Charges	Charges	
_____	_____	X X X
_____	_____	X X X
_____	_____	X X X
_____	_____	X X X
Power Factor Charges	\$8,656	
_____	_____	X X X
_____	_____	X X X

WHY POWER FACTOR IS RELEVANT TO YOU

- If you have not proactively corrected your facility's power factor you may be paying too much for electricity.
- Save thousands of dollars per month on your electric bill without reducing your usage.

WHY RPM?

- RPM has been helping industrial, commercial and institutional clients correct their power factor since 2002.
- RPM has both the knowledge and the expertise to determine if, and how much, you are paying in penalties.
- RPM has installed reliable turnkey solutions for hundreds of clients of all sizes in over 20 states
