

Local LED Upgrades

Since 2002, we've been working with businesses as their trusted energy management team- combining our market knowledge, technical expertise, and consultative approach, we work tirelessly to lower your energy costs. We're not just another broker- we will investigate your energy spending from all angles to create a custom savings approach.

"Replacing our old fixtures with new LED fixtures have markedly improved our workplace environment. We've seen gains in worker morale and productivity due to an improved ambiance and a significant reduction in worker errors due to sight clarity."

Design For Human Use

WHY LED UPGRADES ARE RELEVANT FOR YOU

Redesigning your lighting plan typically reduces the number of fixtures required by 10 to 30%, makes the installation eligible for tax and utility incentives, maximizes energy savings and improves overall lighting effectiveness.

- Saves money by reducing energy use by 40% or more and nearly eliminates maintenance costs.
- Eligible for Federal tax deductions and many utility rebates.
- LEDs maintain light output and quality over entire lifetime.
- LED lighting improves work performance by 8.3% in visual and cognitive tasks.

WHY RPM?

- RPM has been providing business lighting solutions since 2005.
- Engineered approach by CLEP (Certified Lighting Efficiency Professional) staff.
- RPM identifies, documents and administers utility rebate and tax reduction programs so you don't have to.
- Free, no obligation lighting audit.
