

Energy Procurement

Since 2002, we've been working with businesses as their trusted energy management team- combining our market knowledge, technical expertise, and consultative approach, we work tirelessly to lower your energy costs. We're not just another broker- we will investigate your energy spending from all angles to create a custom savings approach.

WHY RPM?

RPM was at the forefront of energy deregulation and has been providing proven business energy procurement solutions to industrial, commercial and institutional clients since 2002.

- Experience our proactive approach and see how we maintain a 99% retention rate with our clients
- Get the most competitive rates quickly through RPM's exclusive network of the leading retail electricity and gas suppliers
- Maximize your energy savings and mitigate your risks— our energy managers will work with you to understand and tailor solutions to your business
- Utilize RPM's proprietary data and energy management tools to monitor pricing and more:
 - Price alerts to help you determine the optimal time to lock in your energy contracts— now at your finger tips with our RPM app.
 - Energy analytics and budgeting tools to help you monitor, plan and budget your energy costs.

"We've used Rapid Power Management to procure our energy needs for several years. Their alerts are easy to understand, timely and full of valuable information. RPM's responsive staff seamlessly handles the transition from one power provider to another with minimum client involvement. I highly recommend RPM to anyone looking to save money on energy."
