

Savings Solutions

Since 2002, we've been working with businesses as their trusted energy management team- combining our market knowledge, technical expertise, and consultative approach, we work tirelessly to lower your energy costs. We're not just another broker- we will investigate your energy spending from all angles to create a custom savings approach.

"RPM did an outstanding job of handling our Predominant Use Study and Sales Tax Exemption processing. They also got us a nice refund! We use RPM across all our portfolio companies for energy consulting and provisioning."

Marvin Karlow
Cimcon Finishing

WHY THESE SOLUTIONS ARE RELEVANT TO YOU

For many businesses, energy represents one of largest cost items in the budget. Our engineering services portfolio is designed to help you reduce your energy spend without a large capital outlay.

- Sales Tax Exemption Studies: Stop paying sales tax on electricity and/or natural gas. Reclaim past sales tax when eligible.
- Power Quality Studies: Determine your savings opportunity. Poor power quality costs US businesses billions of dollars annually in lost productivity.
- Smart Metering Solutions: Manage the risks associated with energy price spikes, lock in low prices, identify power factor and power quality problems and other energy-saving opportunities.

WHY RPM?

- RPM has been helping industrial, commercial and institutional clients save money on energy since 2002.
- RPM has both the knowledge and the expertise to maximize your savings on electricity and natural gas.
